

2017-18

Hello Parents,  
Welcome to

# Seventh Grade!

Believe it or not, your student is halfway to high school graduation

Parents have common questions about achievement and instruction as students move up each grade. This guide will point you to answers as you help your student reach graduation!

# WHAT IS MY CHILD LEARNING?

State standards describe what Oregon **students should know and be able to do by the end of the school year.**

Following are a few examples of state standards for SEVENTH GRADE students:

## English Language Arts

(includes reading, writing, language, speaking and listening)

- Develop the topic with relevant facts, definitions, concrete details, quotations, or other information and examples.
- Use appropriate transitions to create cohesion and clarify the relationships among ideas and concepts.
- Provide a concluding statement or section that follows and supports the information or explanation presented.

## Math

- Understand proportions and use them to solve real-world math problems.
- Add, subtract, multiply and divide positive and negative numbers.
- Solve real-life math problems using algebra equations.

## Science

- Show how adding or removing thermal energy affects particles and states of a pure substance.
- Describe the role of photosynthesis in the movement of matter and flow of energy in and out of an organism.
- Interpret data on natural hazards to predict future catastrophic events and describe how it guides creation of ways to limit damage.

## Social Sciences

- Describe and compare the beliefs, spread and influence of religions through Asia, Africa, and the Middle East, including the Crusades.
- Analyze the economic, scientific and cultural aspects of the European Renaissance that led to the Scientific Revolution, voyages of discovery, and imperial conquest.
- Compare and analyze human characteristics (e.g., population, land use, language and religion) of places and regions in the Eastern Hemisphere.

There are also standards for physical education, health education, art, English language acquisition (for English language learners) and others.

## WHAT DOES IT TAKE TO GRADUATE?

It may seem strange to think about high school graduation now. But, middle school is when students begin forming thoughts and feelings about their future after high school and in adulthood.

**The best way to set your student up to reach graduation is to make sure he or she is regularly attending school and meeting standards every year.**

Here are the things members of the class of 2017 accomplished in order to receive their diplomas:

1. Earned a total of 24 high school credits in the classes shown here. One credit = one full year of a class (2 semesters) with a passing grade.

**English**, 4 credits

**Math**, 3 credits

**Science**, 3 credits

**Social Studies**, 3 credits

**P.E.**, 1 credit

**Health**, 1 credit

**Second Language**,

**Arts or Career-Tech**, 3 credits

**Other Electives**, 6 credits

2. Demonstrated they have “essential skills” by reaching a set score on state tests or other approved tests (such as PSAT, SAT, ACT or WorkKeys), or by providing work samples.

3. Completed career planning activities.

# HOW IS MY CHILD DOING?

Four ways to find out:

## 1 Progress reports

Parents of middle school students will receive a progress report every six weeks. Final semester grades are sent home at the end of each semester – midyear (late in January) and at the end of the school year (June). Salem-Keizer middle schools currently use a letter grade scale (A to F).

## 2 State tests

Every year, Oregon students in grades 3–8 and grade 11 take state tests in reading, writing, math and science. The tests measure students' knowledge of state standards, and give the Oregon Department of Education feedback about how schools are doing.

The state test for English language arts and math is called the Smarter Balanced Assessment. Students take the test in the spring, and results are sent home around the end of summer.

The Smarter Balanced Assessment was first used in our district in 2015, so it is still relatively new. Students will benefit from **encouragement and practice** to help them adjust to the new style of test.

After students have had more experience with the test, parents may choose to look at state test results as one way to gauge their student's progress toward mastering state standards.

## 3 Talk with teachers

A conversation with your student's teachers is a great way to find out how he or she is doing. Email is probably the fastest way to get in touch with teachers, but they are also available for phone conversations after school. Remember - it's important to **attend parent-teacher conferences**. Please take advantage of this opportunity to meet with teachers in person. Parents are also always welcome to visit the school, and to become a volunteer.

## 4 ParentVUE

<http://www.salemkeizer.org/parents/parentvue>

Parents can find their student's current grades, class schedule, attendance, and assignment information through this online tool. Attendance information is updated daily. Please contact your school to activate your ParentVUE account.

# HOW CAN I HELP AT HOME?

As a parent or guardian of a student, **you are the most influential person in your child's future success.**

There are many things you can do to help set your student up for success in school and for life after graduation. Here are a few:

- Make regular school attendance a priority.
- Know about the academic concepts your child is learning in school (see page 2).
- Have a comfortable place set up for homework, and make sure there are enough supplies, like paper and pencils.
- Encourage your student to read every day.
- Encourage writing at home. Write together, and include details.
- Talk with your student about going to college and about different careers.
- Help your student build study habits by reviewing due dates for homework and project schedules. **Check your student's planner or agenda every day.**
